KSDK-TV - Odor alert lifted near troubled Bridgeton landfill - 1/9/14 - Repair work wrapped up Wednesday afternoon on a damaged gas-extraction system at the troubled Bridgeton Landfill. Monday's sub-zero temperatures caused parts of the system to freeze and that led to some gas leaks as crews made repairs.

FierceEnergy - EPA NSPS finally posts to Federal Register - 1/8/14 - Industry organizations are voicing serious concerns about the U.S. Environmental Protection Agency's (EPA) redrafted New Source Performance Standards (NSPS), as the rule is posted to the Federal Register today. Organizations like the American Coalition for Clean Coal Electricity (ACCCE) continue to express concerns about the rule's "unachievable standards and unattainable timeline" for new coal-fueled plants.
